Office Action Summary	Application No. 09/848,713	Applicant(s) GRUMANN ET AL.	
	Examiner Cheryl M. Reid	Art Unit 2142	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-23 have been examined.

Response to Arguments

2. Applicant's arguments filed 10/19/05 have been fully considered but they are not persuasive. Applicant argues that Helpser does not teach of a generic output and points to the alleged definition of "generic output," in the Specification page 7, lines 28 to page 8 line 2. Examiner would like to point out that no where in that section does it mention "generic output," as a matter of fact the term "generic output," is only recited in the claim language, specifically claims 1-4, and claim 9. Examiner contends that the term "generic output" was never defined. Examiner is interpreting "generic output" as any type of data or output that results from or relates to the translating of collected service performance information, because this definition gives the broadest reasonable interpretation. Furthermore, for the sake of argument, even if Specification page 7, lines 28 to page 8 line 2, did implicitly define the term "generic output," wherein Examiner is assuming that the "generic output" would be the health metrics recited in that section, Helpser still teaches of the generic output (col 2, lines 55-60), wherein component performance of a system is the "health metrics (generic output)."

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2142

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-6, 8-11, 12-15, 17-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Helsper et al (6876988) hereafter Helsper.

5. In regards to claims 1-6, 8-11, 12-15, 17-23 the rejection was set forth in the previous office action mailed on 6/03/2005.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Helsper (US 6786988) as applied to claim 1 above, and further in view of Chappelle (US 5949976).

7. In regards to claim 7 the rejection was set forth in the previous office action mailed on 6/03/2005.

8. ***Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Helsper as applied to claim 1 above, and further in view of Warland et al. (US 6647413).***

9. In regards to claim 16 the rejection was set forth in the previous office action mailed on 6/03/2005.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheryl M. Reid whose telephone number is 571 272 3903. The examiner can normally be reached on Mon- Fri (7-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Caldwell can be reached on (571)272-3868. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
